## **DETAILED ACTION**

### ***Response to Amendment***

1. The declaration filed on 7/1/04 under 37 CFR 1.131 is sufficient to overcome the Ngo reference. The applicant declares that the pictures on Figures 4A and 4B were taken on July 7, 2000 and therefore that the invention was reduced to practice on that date.

### ***Drawings***

2. Authorization for this examiner's amendment was given in a telephone interview with John Evans on 8/11/04.

3. The following changes to the drawings have been approved by the examiner and agreed upon by applicant: Each bottom figure on page 1, 2 and 4 of the drawings will be labeled "FIG. 1B", "FIG. 2B" and "FIG. 4B", respectively. In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

### ***Allowable Subject Matter***

4. Claims 1-17 and 20-21 are allowed.

5. The following is an examiner's statement of reasons for allowance: the prior art fails to teach or suggest a method for forming a high aspect ratio, post-etch lithographic feature against collapse comprising transferring the image to the organic underlayer from the photoresist which comprises materials that form stable, etch-resistant, non-volatile oxide in order to form a high aspect ratio resist image and then treating this bilayer resist image with a chemically reducing plasma.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Nicole M Barreca whose telephone number is 571-272-1379. The examiner can normally be reached on Monday-Thursday (9AM-7PM).
